

I earned the Master title as Data Protection Officer!

And now some self promotion! I'm pleased to announce that I passed the final exam of the Master course as Data Protection Officer, held in Torino in 2013 and co-organized by the well known law firm [ICT Legal Consulting](#) and by [Unolegal](#).

The Master title achieved – centered on the legal aspects of data protection under the present Italian legal framework (dlgs. 196/2003) and on the upcoming EU regulation on data protection, certifies my continuous commitment in the field of TMT law.

Thanks to all those who supported this effort and a special thanks to [Lessicom](#), who was essential in helping me achieving this result!
